FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

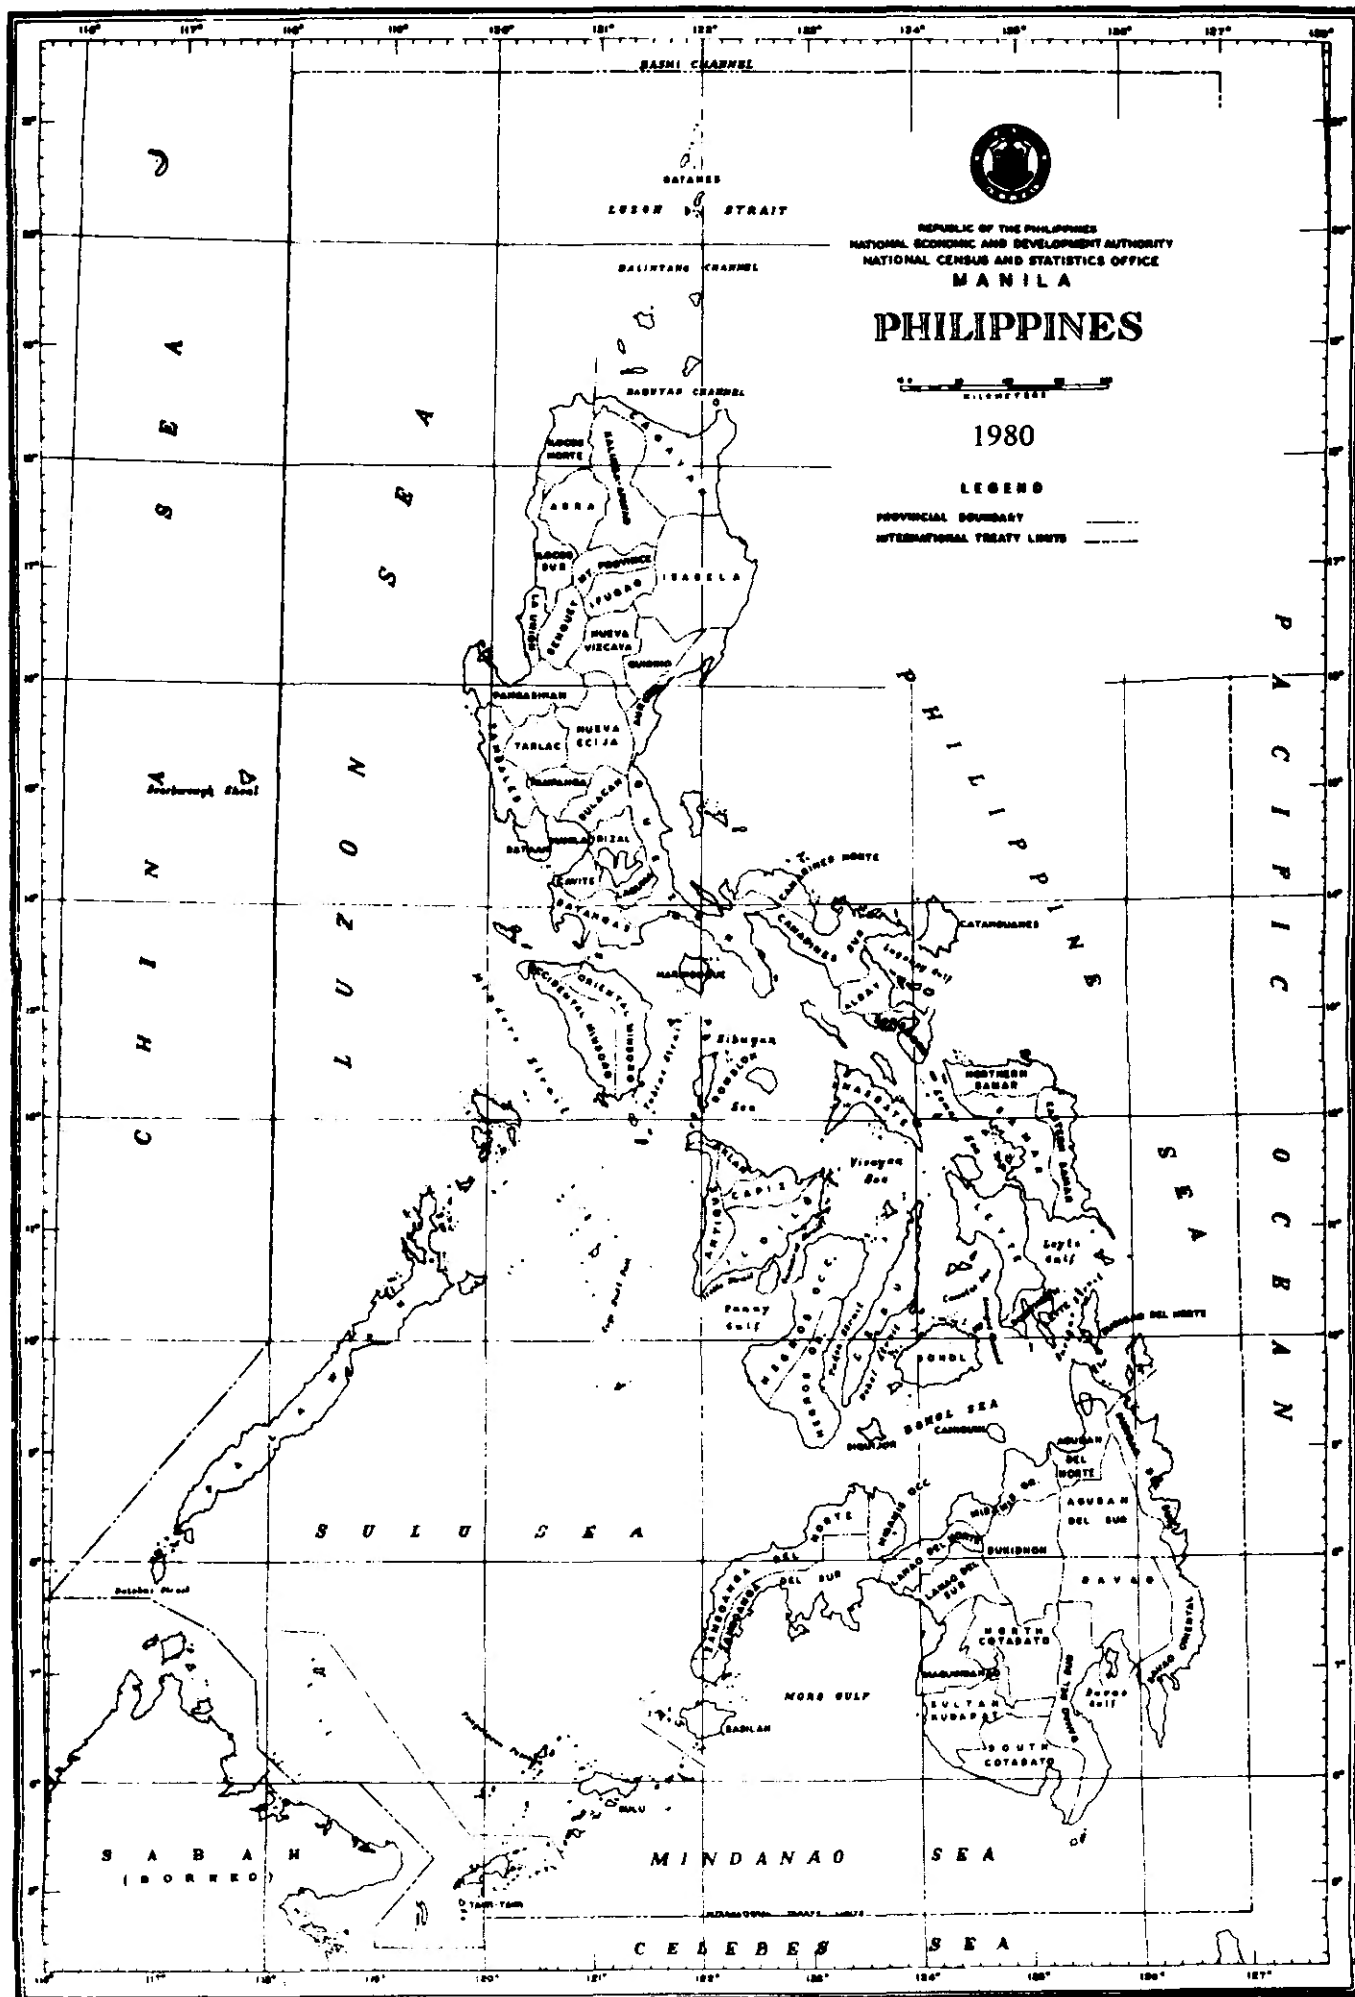

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

DETAILED TABLES	
POPULATION TABLES	
1. Population Enumerated in Various Censuses: 1903-1980	1
2. Population By Single-Year Age Classification and Sex, Urban-Rural:	
1980	2
3. Population By Age Group, Sex and Municipality, Urban-Rural: 1980	4
4. Population 10 Years Old and Over By Age Group, Sex, Marital Status	
and Municipality, Urban-Rural: 1980	8
5. Private Household Population 7 Years Old and Over By Highest Grade	
Completed, Age, Sex and Municipality: 1980	41

6.	Literacy of Private Household Population 10 Years Old and Over By Age Group, Sex and Municipality, Urban-Rural: 1980	71
7.	Language or Dialect Generally Spoken in Private Households By Municipality, Urban-Rural: 1980	80
8.	Private Household Population 15 Years Old and Over By Gainful and Non-Gainful Occupation, Marital Status and Sex, Urban-Rural: 1980	83
9.	Gainful Workers 15 Years Old and Over of Private Households By Major Occupation Group, Major and Minor Industry Groups and Sex, Urban-Rural: 1980	85
10.	Present Residence of Private Household Population 5 Years Old and Over By Place of Residence on May 1, 1975, Sex and Municipality, Urban-Rural: 1980	103

HOUSING TABLES

1.	Number of Households in Occupied Dwelling Units By Type of Building, Type of Occupancy and Municipality, Urban-Rural: 1980	107
2.	Number of Households in Occupied Dwelling Units By Year Built, Construction Materials of Roof and Outer Walls, Urban-Rural: 1980	111
3.	Number of Households in Occupied Dwelling Units By Type of Building, Floor Area and Municipality, Urban-Rural: 1980	113
4.	Number of Households in Owner-Occupied Dwelling Units By Type of Building, Tenure of the Owner-Occupant with Respect to the Land and Municipality, Urban-Rural: 1980	121
5.	Number of Households in Occupied Dwelling Units By Kind of Lighting and Municipality, Urban-Rural: 1980	128
6.	Number of Households in Occupied Dwelling Units By Use and Source of Water Supply and Municipality, Urban-Rural: 1980	129
7.	Number of Households in Occupied Dwelling Units By Type of Toilet Facilities and Municipality, Urban-Rural: 1980	138
8.	Number of Households in Occupied Dwelling Units By Kind of Cooking Fuel and Municipality, Urban-Rural: 1980	139
9.	Number of Households in Occupied Dwelling Units with Household Appliances By Municipality, Urban-Rural: 1980	140

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial, City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellery or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesorio, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

North Cotabato: A Brief Analysis

North Cotabato, formerly a part of the old province of Cotabato, was created together with two other provinces (Maguindanao and Sultan Kudarat) on November 22, 1973 by virtue of Presidential Decree No. 341. It is bounded on the north by Lanao del Sur and Bukidnon, on the east by Davao del Sur, on the south and southwest by Sultan Kudarat and on the west by Maguindanao.

Vast areas of fertile lands, enriched by the Rio Grande de Mindanao, stretch across the province. The Pinpayangan Range, comprising the border between the province and Lanao del Sur, and the Apo Range on the east are the most important among its several mountain ranges.

There are two natural attractions in the province -- the Rio Grande de Mindanao, the second largest river in the Philippines, and the Lonzones Forest at Kidapawan. Likewise, three rubber plantations are found in the province.

North Cotabato has a total land area of 6,565.9 square kilometers representing 2.19 percent of the total land area of the Philippines. It is composed of 14 municipalities with Kidapawan as the capital.

POPULATION

In the 1980 census, North Cotabato had a total population of 564,599 of which 289,665 were males and 274,934 were females. In terms of population size, the province ranked number 28 among the 73 provinces of the country. From 1975 to 1980, its population marked an increase of 92,297 or an equivalent of 19.54 percent over a period of five years. This indicates an annual growth rate of 3.63 percent during the two censal periods. Consequently, its population density increased from 71.9 persons per square kilometer in 1975 to 86.0.

North Cotabato is predominantly rural; 84.46 percent of the total population live in rural areas while only 15.54 percent reside in urban areas. However, the proportion of the urban population has increased by 0.98 percentage point within a five-year period. Correspondingly, the proportion of its rural population decreased by 0.98 percentage point.

Between 1975 and 1980, the urban male and female population increased by 0.35 and 0.63 percentage point, respectively, while the rural male and female population decreased by 0.83 and 0.15 percentage point.

A BRIEF ANALYSIS

The table below shows the distribution of the population in urban and rural areas in three censal years:

**TABLE A – URBAN-RURAL POPULATION BY SEX,
NORTH COTABATO: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>564,599</u>	<u>100.00</u>	<u>472,302</u>	<u>100.00</u>	<u>468,354</u>	<u>100.00</u>
Male	289,665	51.30	244,535	51.78	240,642	51.38
Female	274,934	48.70	227,767	48.22	227,712	48.62
Urban	<u>87,766</u>	<u>15.54</u>	<u>68,748</u>	<u>14.56</u>	<u>62,724</u>	<u>13.39</u>
Male	43,164	7.64	34,405	7.29	31,246	6.67
Female	44,602	7.90	34,343	7.27	31,478	6.72
Rural	<u>476,833</u>	<u>84.46</u>	<u>403,554</u>	<u>85.44</u>	<u>405,630</u>	<u>86.61</u>
Male	246,501	43.66	210,130	44.49	209,396	44.71
Female	230,332	40.80	193,424	40.95	196,234	41.90

A BRIEF ANALYSIS

The sex ratio (number of males for every 100 females) of the province dropped from 107.36 in 1975 to 105.36 in 1980. The sex ratio was much higher in the rural areas (107.02) than in the urban areas where there were only 96.78 males for every 100 females.

The population pyramid for the rural male and female population tends to follow an expansive profile of the age-sex distribution. A large number of the urban and rural population are below 5 years old. From this age group to the 80 years old and above, the population (male and female) decreases as each age group grows older, thus a pyramid-like structure is observed with the broad base formed by the under-5-years of age and the apex, by the 80 years old and over. However, a slight deviation is observed in the pyramid configuration with the urban female population 15-19 years of age outnumbering those 10-14 years old (Table 2).

AGE COMPOSITION

The biggest proportion of the population of North Cotabato according to broad age distribution belongs to the productive age bracket (15-64 years). More than fifty percent compose this group (51.99%) while the younger population (0-14 years) comprise 45.61 percent of the provincial total. Only 2.40 percent make up the older age group (65 years and over). From 1975 to 1980, the younger age group decreased by 1.57 percentage points while the productive age group went up by 1.04 percentage points. The older age group likewise increased by 0.53 percentage point.

Comparative figures showing the age composition of the population from 1970 to 1980 are shown in Table B.

**TABLE B – AGE COMPOSITION OF THE POPULATION,
NORTH COTABATO: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>564,599</u>	<u>100.00</u>	<u>472,302</u>	<u>100.00</u>	<u>468,354</u>	<u>100.00</u>
0-14 years	257,493	45.61	222,842	47.18	224,680	47.97
15-64 years	293,539	51.99	240,655	50.95	235,112	50.20
65 years and over	13,567	2.40	8,805	1.87	8,562	1.83

The median age of the population is 16 years; fifty percent of the population are below 16 years of age while the other fifty percent are above this age. In 1975, the median age of the population was also recorded at 16 years, which means that the population of North Cotabato has not aged.

The dependency ratio (number of dependents for every 100 persons in the productive age group) registered at 92.34. Urban areas had fewer dependents than rural areas. Urban dependency ratio was 82.00, markedly lower than the rural ratio of 94.38. Of the total urban population, 42.33 percent were below 15 years old; 54.95 percent belonged to the productive age bracket and 2.72 percent, to the older age group. Among the rural inhabitants, 46.21 percent were 0-14 years of age; 51.45 percent, 15-64 years and 2.34 percent, 65 years and over (Table 3).

A BRIEF ANALYSIS

MARITAL STATUS

More than half (51.84%) of the total population 10 years old and over were married; 44.42 percent were never married; 3.34 percent, widowed and 0.32 percent, divorced or separated. Only 0.08 percent of the population did not report their marital status. An increase of 4.10 percentage points is noted among married persons; hence, a decrease of 4.61 percentage points in the proportion of never married persons. The widowed and divorced or separated likewise increased their respective proportions by 0.37 and 0.08 percentage point and that of persons who did not disclose their marital status, by 0.06 percentage point.

Less than half of the urban population remained single (48.33%); 48.09 percent were married; 3.10 percent were widowed and 0.36 percent, divorced or separated. Only 0.12 percent did not reveal their marital status. On the other hand, majority of the rural population were married (52.57%); 43.66 percent remained single and 3.39 percent were widowed. Divorced or separated persons comprised only 0.31 percent of the rural population and persons whose marital status was not reported, 0.07 percent.

**TABLE C – POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS,
NORTH COTABATO: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>377,984</u>	<u>100.00</u>	<u>315,329</u>	<u>100.00</u>	<u>308,427</u>	<u>100.00</u>

Married	98,212	53.46	75,652	50.01	75,315	50.46
Widowed	8,486	4.62	6,381	4.22	6,458	4.33
Divorced/separated	669	0.36	454	0.30	699	0.47
Not stated	177	0.10	43	0.03	292	0.19

A BRIEF ANALYSIS

Among the males 10 years old and over, 47.22 percent were single; 50.31 percent were married; 2.14 percent, widowed and 0.28 percent, divorced or separated. Comparatively, higher proportion of the females were married (53.46%), widowed (4.62%) and divorced or separated (0.36%). However, the proportion of unmarried females (41.46%) was lower than their male counterparts. A negligible percentage of the males (0.05%) as well as the females (0.10%) did not report their marital status.

A decrease of 5.12 percentage points is noted in the proportion of never married males between 1975 to 1980. Meanwhile, married and widowed males increased their proportions by 4.67 and 0.33 percentage points, respectively. The same trend is observed for the divorced or separated, increasing only by 0.10 percentage point. Among married females, a 3.45 percentage-point increase is observed after five years, while unmarried females decreased their proportion by 3.98 percentage points. Widowed and divorced or separated females also posted slight gains of 0.40 and 0.06 percentage point, respectively (Table 4).

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

Of the private household population 7 years old and over, 55.48 percent completed an elementary education, a decrease of 5.15 percentage points from the proportion reported in 1975. Almost one-fifth (19.61%) reached the secondary level, an increase of 2.52 percentage points over the previous proportion. Only 5.17 percent continued as far as college level; nevertheless, this proportion indicates an improvement of 1.26 percentage points within a span of five years. Academic degree holders likewise increased 1.04 percentage points. While the proportion of persons who did not have any formal education rose from 15.12 percent in 1975 to 16.66 percent in 1980, that of persons who did not disclose their educational attainment dropped from 1.40 percent to 0.19 percent, more than six times lesser than its proportion in 1975.

Among those who had elementary training, almost one-third (32.55%) graduated from the sixth or seventh grade. More than a third did not go beyond the first to third grade (34.95%); 18.57 percent reached fourth grade and 13.93 percent, fifth grade. Of those who attended high school, almost seventy percent went as far as the first to third year (69.67%) while 30.33 percent graduated from fourth year. Among the college undergraduates, 85.97 percent finished the first to third year while only 14.03 percent completed the fourth or higher years (Table 5).

FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, NORTH COTABATO: 1980

A BRIEF ANALYSIS

The distribution of the private household population according to highest grade completed in two censal years is shown in Table D.

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD
AND OVER BY HIGHEST GRADE COMPLETED,
NORTH COTABATO: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>424,849</u>	<u>100.00</u>	<u>359,273</u>	<u>100.00</u>
No grade completed	70,804	16.66	54,326	15.12
Elementary	235,698	55.48	217,835	60.63
High school	83,309	19.61	61,403	17.09
College	21,981	5.17	14,047	3.91
Academic degree holder	12,262	2.89	6,626	1.85
Not stated	795	0.19	5,036	1.40

A BRIEF ANALYSIS

LITERACY

North Cotabato had a literacy rate of 75.46 percent of the private household population aged 10 and over. In the urban areas, literacy rate was recorded at 91.57 percent, markedly higher by 19.22 percentage points over the rural literacy rate of 72.35 percent. Among the urban males 91.49 percent were literate, markedly higher by 18.06 percentage points compared to their rural counterparts (73.43%). A wider gap among female literates in the urban and rural areas is further observed — 91.64 percent for the urban females and 71.20 percent for rural females (Table 6).

LANGUAGE OR DIALECT

Diverse languages and dialects are spoken in the province, with two Visayan dialects predominating. Of the total private households, 37.86 percent generally speak Hiligaynon (Ilongo) and 27.49 percent, Cebuano. Maguindanao is spoken by 15.45 percent and Ilocano by 9.45 percent. About 3.15 percent speak Manobo; 1.62 percent, Tagalog; 1.30 percent, Maranao and 1.24 percent, Bagobo-Guianga. The remaining 2.44 percent speak one of more than 32 other languages and dialects spoken in North Cotabato (Table 7).

FIG. 5 — GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, NORTH COTABATO: 1980

A BRIEF ANALYSIS

GAINFUL OCCUPATION

Of the 305,495 private household population 15 years old and over, 49.81 percent are gainful workers; 50.19 percent are in non-gainful occupations. The number of gainful workers increased by 23.65 percent within a period of five years.

Among the major gainful occupation groups, agricultural, animal husbandry and forestry workers, fishermen and hunters compose the largest proportion (79.13%), notwithstanding a decrease of 2.17 percentage points. Production and related workers, transport equipment operators and laborers decelerated from 6.35 percent to 5.85 percent. Meanwhile, professional, technical and related workers rose from 4.30 percent to 5.40 percent, nearly displacing production and related workers from second rank. Service workers replaced sales workers in fourth position, following an increase of 1.65 percentage points (from 2.25% to 3.90%). Sales workers reported a negligible decrease, from 3.48 to 3.47 percent, while clerical and related workers slightly increased from 1.28 percent to 1.50 percent. Administrative, executive and managerial workers as always constitute the smallest group, moving down further from 0.50 percent to 0.30 percent. Workers not classifiable by occupation decreased from 0.54 percent in 1975 to only 0.45 percent in 1980 (Table 8).

Shown below is the distribution of gainful workers in major occupation groups from 1975 to 1980:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP,
NORTH COTABATO: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>152,175</u>	<u>100.00</u>	<u>123,068</u>	<u>100.00</u>
Professional, technical and related workers	8,226	5.40	5,288	4.30
Administrative, executive and managerial workers	450	0.30	622	0.50
Clerical and related workers	2,276	1.50	1,571	1.28
Sales workers	5,274	3.47	4,287	3.48
Service workers	5,937	3.90	2,770	2.25
Agricultural, animal husband- ry and forestry workers, fishermen and hunters	120,418	79.13	100,051	81.30
Production and related work- ers, transport equipment operators and laborers	8,903	5.85	7,818	6.35
Workers not classifiable by occupation	691	0.45	661	0.54

A BRIEF ANALYSIS

INDUSTRY

The province is basically agricultural. Agriculture, fishery and forestry, the dominant industry group in North Cotabato, provide employment to almost four-fifths, or 79.71 percent of the total gainful workers 15 years old and over. This figure indicates an increase of 21,482 persons or 21.52 percent from 1975 to 1980. Community, social and personal services, the second largest industry group, employ 10.53 percent of the gainfully employed population. Three principal concerns of this group are educational services (38.04%), per-

A BRIEF ANALYSIS

sonal and household services (26.57%), and public administration and defense (23.33%). Wholesale and retail trade ranks third with 3.44 percent — retail trade contributing 90.53 percent of the group's work force. Manufacturing gives its share of 2.08 percent with the manufacture of food, beverages and tobacco (41.21%) and of textile, wearing apparel and leather (39.10%) as main fields of concentrations. Transportation, storage and communication provide employment to 1.99 percent of the total gainful workers. Industries sharing less than one percent each are construction, 0.86 percent; financing, insurance, real estate and business services, 0.71 percent; electricity, gas and water, 0.13 percent; mining and quarrying, 0.05 percent and activities not clearly defined, 0.50 percent (Table 9).

MIGRATION

Of the 460,819 private household population 5 years old and over, 89.41 percent were residents of the same municipality on May 1, 1975. Among the 48,788 individuals who changed residence, 53.12 percent transferred to another municipality within their home province. More than two-fifths (45.93%) moved across provincial boundaries while the remaining 0.95 percent were residing in foreign countries. In the first two migratory movements, there were more males than females — larger by 1.68 percentage points for intra-provincial migration and 1.43 percentage points among migrants from other provinces. Among former residents of foreign lands, the proportion of males was also higher than that of females (0.51% against 0.44%). As observed in Table 10, a large majority of those who moved to another municipality within North Cotabato (90.11%) as well as those who moved across provincial boundaries (77.81%) settled in rural areas. It was further noted that more than three-fourths (78.49%) of those who came from foreign countries also preferred the rural areas as their place of residence.

TYPE OF BUILDING

Of the 98,688 total number of households in North Cotabato, 97.00 percent occupy single houses. Some live in duplexes (1.61%), apartments/accesorias/condominiums/row houses, etc. (0.23%), improvised structures or barong-barong (0.38%) and commercial/industrial/agricultural buildings (0.72%). Very few reside in hotels, lodging houses, dormitories, etc. (0.01%) or in institutional structures such as hospitals, convents and school dormitories (0.04%), and in other collective living quarters like military camps (0.01%).

A large majority of the urban (89.05%) and the rural households (98.42%) reside in single houses. Occupants of duplexes and apartments/accesorias/condominiums/row houses are mostly found in the urban than in the rural areas — 6.48 percent and 0.56 percent, respectively, for urban households; 0.74 percent and 0.17 percent, respectively, for rural households. While more rural households (0.41%) live in improvised structures than their urban counterparts (0.19%), 3.59 percent of the urban households live in commercial/industrial/agricultural buildings, compared to only 0.21 percent of the rural households. The same is true with occupants of hotels, lodging houses, dormitories, etc. and institutional buildings. Approximately 0.03 percent of the urban households and 0.01 percent of the rural households occupy the former type, while 0.10 percent and 0.03 percent of the urban and rural households, respectively, occupy the latter type (Table 1).

A BRIEF ANALYSIS

The following table gives an insight of the housing conditions in the province in 1980:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, NORTH COTABATO: 1980**

Type of Building	1980	
	Number	Percent
Total	<u>98,688</u>	<u>100.00</u>
Single house	95,725	97.00
Duplex	1,593	1.61
Apartment/accesoria/condominium/row house/etc.	225	0.23
Improvised (barong-barong)	375	0.38
Commercial/industrial/agricultural	715	0.72
Other housing unit: natural shelter, boat, etc.	—	—
Hotel, lodging house, dormitory, etc.	10	0.01
Institutional (hospital, convent, school dormitory, etc.)	35	0.04
Other collective living quarters (military camp, etc.)	10	0.01

TYPE OF OCCUPANCY

Table 1 also shows that 87.81 percent of the total number of households own the dwelling units they occupy. The rest of the households are either tenants or lessees (6.20%), sub-tenants or sublessees (0.24%), or rent-free occupants (5.75%).

Owner-occupants of dwelling units comprise 90.09 percent in the rural areas and 75.07 percent in the urban areas. However, the tenant or lessee type of occupancy is higher in the urban (13.41%) than in the rural areas (4.91%). Likewise, the proportion of subtenants or sublessees is a little bit higher among urban households (0.28%) than among their rural partners (0.23%). Consequently, the proportion of rent-free occupants in the urban areas is more than twice the corresponding proportion in the rural areas (11.24% compared to 4.77%).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Most of the households (57.20%) in North Cotabato occupy dwelling units constructed with roofs of cogon or nipa and almost two-fifths (39.27%) live in dwelling units with roofs of galvanized iron or aluminum. The smallest proportion of households (0.46%) reside in units with roofs of tile/concrete/brick/stone and asbestos while 3.07 percent are found in units roofed with makeshift or salvaged materials and others such as anahaw.

A greater proportion of the urban households live in units with roofs of galvanized iron/aluminum (71.10%) than of cogon or nipa (27.33%). In the rural areas, however,

A BRIEF ANALYSIS

households occupying dwelling units roofed with cogon or nipa (62.55%) outnumber those in units roofed with galvanized iron or aluminum (33.56%). The proportion of households in units constructed with roof of makeshift, salvaged or other materials is also higher in rural (3.46%) than in urban areas (0.93%). Households in both areas are seldom found in units roofed with tile/concrete/brick/stone and asbestos (0.64% urban and 0.43% rural).

By type of construction materials of outer walls, nearly the same proportion of households live in dwelling units built with walls of bamboo or sawali (36.31%) and of wood or plywood (35.42%). More than one-tenth (13.94%) occupy units walled with cogon or nipa; 7.75 percent, of mixed tile/concrete/brick/stone and wood/plywood; 4.05 percent, of other materials such as anahaw; 1.89 percent, of galvanized iron/aluminum, tile/concrete/brick/stone and asbestos and 0.64 percent, of makeshift or salvaged materials. Among the urban households 43.68 percent dwell in units constructed with walls of wood or plywood; 24.55 percent, of mixed tile/concrete/brick/stone and wood or plywood; 17.45 percent, of bamboo or sawali and 6.98 percent, of cogon or nipa. Rural households, on the other hand, mostly occupy dwelling units walled with bamboo or sawali (39.69%), wood or plywood (33.94%) and cogon or nipa (15.18%); a few are found in units with walls of mixed tile/concrete/brick/stone and wood or plywood (4.74%) and of other materials (4.62%). (See Table 2.)

YEAR BUILT

More than half (56.16%) of the total households in North Cotabato live in dwelling units built sometime between 1976 and 1980; 22.27 percent, in units erected during 1971-1975; 15.11 percent, in 1961-1970 and 5.33 percent, from 1951 to 1960. Households in dwelling units constructed between 1942 and 1950 make up 0.86 percent, and those in dwelling units erected in 1941 or earlier, 0.27 percent (Table 2).

FLOOR AREA OF DWELLING UNIT

Almost two-thirds, or 65.85 percent of the 98,688 households in the province occupy dwelling units with floor area of less than 30 square meters. Nearly one-fourth (24.02%) dwell in units with floor area of 30-49 square meters; 4.44 percent, in 50-69 square-meter units and 2.96 percent, 70-99 square meters. Few households occupy spacious dwelling units with floor area of 100-149 square meters (1.42%) and the remaining 1.31 percent, in units with floor area of 150 square meters and over (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Majority of the 86,659 owner-occupants (61.96%) also own the land where their dwelling units stand. The rest of the households are either lessees or sublessees (8.63%), farm lessees or agricultural tenants of landowners (13.86%), or of other legal tenure (6.36%). Nearly one-tenth (9.19%), however, have no tenure (squatter, etc.) to the land on which their dwelling units are erected. Most of the urban (61.03%) as well as the rural households (62.10%) own the land where their dwelling units are constructed (Table 4).

SOURCE AND USE OF WATER SUPPLY

Two main sources of water supply in the province are the dug well and spring, used respectively, by 37.57 percent and 21.61 percent of the 98,688 households for drinking; 39.45 percent and 21.48 percent for kitchen use; and 32.80 percent and 16.46 percent for washing clothes. Other sources are tubed/piped deep well and tubed/piped shallow well used for drinking by 16.97 percent and 15.09 percent, respectively; for kitchen use by 15.74 percent

A BRIEF ANALYSIS

and 14.61 percent; and for washing clothes by 14.09 percent and 13.37 percent. Few households depend on the faucet, community water system for their drinking needs (6.18%), kitchen use (5.78%) or for washing clothes (5.29%). Although very few households utilize lake, river, stream, irrigation, etc. as sources of water supply for drinking (1.25%) and for kitchen use (1.79%), a considerable proportion (17.43%) depend on these for washing clothes. Rain water is utilized for drinking by 1.33 percent; for kitchen use, by 1.15 percent and for laundering clothes, by merely 0.56 percent (Table 6).

KIND OF LIGHTING FACILITIES

Kerosene is the most common lighting facility with 89.18 percent of the total households in North Cotabato using it. Not even a tenth use electricity (7.73%); only 1.84 percent use liquefied petroleum gas (LPG); 1.01 percent, other kinds and 0.24 percent, oil. The proportion of households using kerosene is markedly lower in urban (63.37%) than in rural (93.80%) areas. Consequently, 35.85 percent of the urban households use electricity while their rural counterparts constitute only 2.69 percent. Users of liquefied petroleum gas and oil are greater among rural than among urban households –2.06 percent and 0.27 percent, respectively, for the former; 0.64 percent and 0.07 percent, respectively, for the latter. More rural (1.18%) than urban households (0.07%) likewise use other kinds of lighting facilities (Table 5).

COOKING FUEL

Wood or charcoal is predominantly used for cooking by residents of North Cotabato. Majority of the total households (89.13%) cook with wood or charcoal while some use kerosene (7.67%), liquefied petroleum gas (1.89%), or other kinds of cooking fuel (1.13%). Electricity is used by barely 0.18 percent. About nine out of ten (90.62%) rural households depend on wood or charcoal for cooking purposes, considerably higher by 9.80 percentage points than the proportion of urban households (80.82%) using the same kind of cooking fuel. Correspondingly, the proportions of households using kerosene (9.41%) and liquefied petroleum gas (8.40%) are higher in urban areas compared to 7.36 percent and 0.72 percent in rural areas. Electricity is seldom used for cooking by urban (0.77%) and rural households (0.07%). Other kinds of cooking fuel are rarely used by urban households (0.60%) in comparison to rural households, which make up 1.23 percent (Table 8).

TOILET FACILITIES

The most common type of toilet facility in the province is the open pit with more than one-third of the households using it (34.91%). About 27.21 percent use the closed pit (antipolo, etc.); 15.32 percent, water-sealed with other depository and 7.80 percent, water-sealed with sewer/septic tank. A few households use other types like the pail system (1.27%), while a considerable proportion of households (13.49%) have no toilet facilities at all.

Urban households have better toilet facilities than rural households. Among the former, 35.57 percent use water-sealed with other depository type; 30.10 percent, water-sealed with sewer/septic tank; 22.57 percent, closed pit; 9.26 percent, open pit and 0.21 percent, other types. Very few households are without toilet facilities (2.29%). On the other hand, about four out of ten (39.51%) rural households have the open pit as their toilet facility and 28.04 percent, the closed pit. Households using water-sealed with other depository and water-sealed with sewer/septic tank comprise 11.69 percent and 3.81 percent, respectively. Only 1.46 percent use other types while a sizeable proportion (15.49%) of the rural households lack toilet facilities (Table 7).

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

More than half (59.57%) of the total number of households in North Cotabato own radios. However, ownership of television sets and refrigerators or freezers is still limited to few households (2.08% and 3.72%, respectively). Among the urban households, more than three-fourths (76.13%) own radios; 9.79 percent have television sets and 14.78 percent, refrigerators or freezers. On the other hand, 56.60 percent of the rural households own radios, but only 0.70 percent have television sets and 1.74 percent, refrigerators or freezers (Table 9).

HOUSING CENSUS QUESTIONS
(Encircle Code or Enter Appropriate Code If Required.)

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

H-1 What type is this building house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accordion/Condominium/Row house/etc.
- 4 Improved (barrack/hallway)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional (hospital/convent/school dormitory/prison institution)
- 9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asbestos
- 4 Cogon/Nipa
- 5 Makeshift/Salvaged Materials
- 6 Other (bamboo, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/Plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood
- 5 Asbestos
- 6 Bamboo/Sawali
- 7 Cogon/Nipa
- 8 Makeshift/Salvaged Materials
- 9 Other (bamboo, etc.)

H-4 When was this building/house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

Transcribe
encircled codes
here.

H-1 22
H-2 23
H-3 24
H-4 25

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?

- 1 Room
- 2 Rooms
- 3 Rooms
- 4 Rooms
- 5 Rooms
- 6 Rooms
- 7 Rooms
- 8 Rooms
- 9 or more

H-6 What is the floor area of this dwelling unit in square meters?

- 1 Less than 30 sq. meter
- 2 30-49 sq. meters
- 3 50-69 sq. meters
- 4 70-99 sq. meters
- 5 100-149 sq. meters
- 6 150-199 sq. meters
- 7 200-249 sq. meters
- 8 250-299 sq. meters
- 9 300 sq. meters & over

H-5 26
H-6 27

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

- 1 Owner
- 2 Tenant/Lessee
- 3 Sub-tenant/sublessee
- 4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

- 1 Owner
- 2 Lessee or sublessee
- 3 Farm lessee/agricultural tenant of landowner
- 4 Other legal tenure
- 5 No tenure (squatter, etc.)
- 6 Not applicable

H-9 What kind of lighting do you use?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Oil (vegetable, animal)
- 5 Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

For Drinking? For Kitchen Use? For Washing Clothes? Source of Water Supply

- | | | | |
|----|----|----|---|
| 01 | 01 | 01 | Faucet inside house/yard, Community Water System |
| 02 | 02 | 02 | Faucet, Public, Community Water System |
| 03 | 03 | 03 | Faucet, Other, Community Water System |
| 04 | 04 | 04 | Tubed/piped deep well, At least 5 or 20 ft. Own Use |
| 05 | 05 | 05 | Tubed/piped deep well, 50 meters deep |
| 06 | 06 | 06 | Tubed/piped deep well, 50 meters deep |
| 07 | 07 | 07 | Tubed/piped shallow well, Own Use |
| 08 | 08 | 08 | Tubed/piped shallow well, Public |
| 09 | 09 | 09 | Tubed/piped shallow well, Other |
| 10 | 10 | 10 | Dug well, improved (covered and no seepage from side) |
| 11 | 11 | 11 | Dug well, Other |
| 12 | 12 | 12 | Spring, improved (with tube/pipe outlet) |
| 13 | 13 | 13 | Spring, Other |
| 14 | 14 | 14 | Rain |
| 15 | 15 | 15 | Lake, river, stream, irrigation, etc. |

H-7 28
H-8 29
H-9 30
H-10 31-32
H-11 33-34
H-12 35-36
H-13 37-41

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)
Title _____
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS: PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
